About Us

Sustainable Graphics was formed in 2008 when two friends, who had been screen printing for years using traditional materials decided that it was time for a screen printer in Santa Barbara to dedicate themselves to a more environmentally friendly way of making their product.

Our Methods

At Sustainable Graphics, we specialize in printing using water-based and phalate free inks. We believe that not only are these inks better for the environment, they look and feel better on the garment as well. They provide a lighter and brighter image, both on the clothing and on the conscience.

The logo features a stylized green plant with a yellow flower and a green arrow pointing right, integrated into the letter 'G' of the word 'GRAPHICS'.

SUSTAINABLE
GRAPHICS
eco-friendly designs

We are Santa Barbara's locally owned, environmentally friendly screen printing and graphic design resource.

Large, stylized green and yellow leaf patterns with a speckled texture, arranged in a decorative, swirling manner on the left and right sides of the page.

Our Services

*We Specialize in Screen Printing,
but Our Services Also Include:*

- Vinyl Banners and Stickers
- Screen Printed Signs
- Graphic Design
- Web Design

*If you have a design or media need, we can
do it, the environmentally friendly way.*

10 Reasons to Choose Sustainable Graphics:

1. *Water based inks are less damaging to the environment.*
2. *Water-based inks look and feel better than normal plastisol ink.*
3. *We use soy based chemicals for clean up when the job is done.*
4. *We don't use aerosol.*
5. *We use refillable ink cartridges in our ink jet printers to reduce E-waste*
6. *We have attended environmentally friendly specialization classes put on by companies like Westix and Matsui to perfect our skills and knowledge.*
7. *We can even deliver your order by scooter (seriously).*
8. *We are fast. From artwork approval to delivery in less than seven days.*
9. *We know what looks good and can help you in the design phase of your product if you need assistance.*
10. *We care about the environment. We are dedicated to staying current on all products and procedures that will help to reduce our impact on the Earth.*
